are manufactured, in the same way as particle board. After drying the wood at 300 F degrees to a moisture content of only 4 % , it is molded in addition with synthetical binder under a pressure of approx. 1300 psi and 400 F degrees. This molding process can not be survived by any living plant pests.

Therefore these pallets are entirely composed of manufactured wood according to the international guidelines for phytosanitary measures IPPC-ISPM15

We confirm that these molded particleboard pallets are heat processed, so they are of manufactured wood according to the KOREAN import regulations (June 1, 2005) and totally free from any living plant pests according FAO-IPPC-ISPM15!
