INSPECTION SERVICES)

MANUFACTURER'S CERTIFICATE

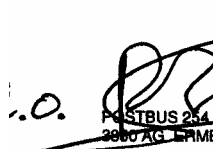

Ermelo / The Netherlands 2005-11-02

We confirm that the molded INKA presswood pallets destined to be exported to the **REPUBLIC OF SINGAPORE** by our client/ distributed via our reseller

are manufactured, in the same way as particle board. After drying the wood at 300 F degrees to a moisture content of only 4 % , it is molded in addition with synthetical binder under a pressure of approx. 1300 psi and 400 F degrees. This molding process can not be survived by any living plant pests.

Therefore these pallets are **not** considered as non-manufactured wood in the meaning of **FAO-IPPC-ISPM15**. These pallets are considered as a "wood based panel product" ! This is riskless material according to **FAO-IPPC-ISPM15, (International Planth Protection Convention – International Standards for Phytosanitary Measures)**. Wood based panels can be used as packing or as pallets without any fumigation or heattreatment.

We confirm that these molded particleboard pallets are heat processed and totally free from any plant pests according FAO-IPPC-ISPM15!
